

CNR's developments in the Rhone Valley

-  14 WIDE GAUGE LOCKS
-  1 LOCK FOR PLEASURE CRAFT
-  19 DAMS
-  19 HYDROELECTRIC PLANTS
-  3 SMALL HYDROPOWER PLANTS (SHP)
-  7 MINI-HYDROPOWER PLANTS
-  5 WIND FARMS
-  1 SOLAR POWER STATION
-  DEVELOPED CANALS

A typical CNR development scheme: 18 out of CNR's 19 hydropower plants have low heads. The low storage capacities of the reservoirs are used to modulate flow rates and thus optimise production.

CNR's developments outside the Rhone Valley

-  6 wind farms in the west
-  3 small hydropower plants in the Alps
